Item 2. Dissenters' Right of Appraisal

Sections 80, Title X: Appraisal Right of the Revised Corporation Code of the Philippines, provide for a shareholder's exercise of the right of appraisal (defined as the right of any stockholder to dissent and demand payment of the fair value of his shares). The instances where the right of appraisal may be exercised are as follows:

1. In case any amendment to the Articles of Incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences in any respect superior to those of outstanding shares of any class, or of extending or shortening the term of corporate existence;
2. In case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the Company's property and assets;
3. In case of merger or consolidation; and
4. In case the Company decides to invest its funds in another corporation or business outside of its primary purpose.

There are no new items in the agenda that may give rise to a dissenting shareholder's exercise of the right of appraisal

Procedure for Exercise of Dissenter's Appraisal Right

Section 81 of the *Revised Corporation Code of the Philippines* provides for the appropriate procedure for the exercise of the right of appraisal, *viz*:

The appraisal right may be exercised by any stockholder who shall have voted against the proposed corporate action, by making a written demand on the corporation within thirty (30) days after the date on which the vote was taken: Provided, that the failure to make the demand within such period shall be deemed a waiver of the appraisal right. If the proposed corporate action is implemented or affected, the Corporation shall pay to such stockholder, upon surrender of the certificate(s) of stock representing his shares, the fair value thereof as of the day prior to the date on which the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action.

If within a period of sixty (60) days from the date the corporate action was approved by the stockholders, the withdrawing stockholder and the corporation cannot agree on the fair value of the shares, it shall be determined and appraised by three (3) disinterested persons, one of whom shall be named by the stockholder, another by the corporation and the third by the two thus chosen. The findings of the majority of the appraisers shall be final, and their award shall be paid by the corporation within thirty (30) days after such award is made: Provided, that no payment shall be made to any dissenting stockholder unless the corporation has unrestricted retained

earnings in its books to cover such payment; and Provided, further, that upon payment by the corporation of the agreed or awarded price, the stockholder shall forthwith transfer his shares to the corporation.

Item 3. Interest of Certain Persons in or Opposition to Matter to be Acted Upon

The following persons have no substantial interest, direct or indirect, by security holdings or otherwise, in any matter to be acted upon, other than election to office:

1. each person who has been a director or officer of the Corporation at any time since the beginning of the fiscal year;
2. each nominee for election as a director of the Corporation: and
3. each associate of any of the foregoing persons.

No member of the Board of Directors of the Corporation has informed the Corporation in writing that he intends to oppose any action to be taken by the Corporation at the annual meeting of the stockholders.

ATN invested in real properties and stocks. Its investments in real properties are several units of Summit One Tower located at 530 Shaw Boulevard, Mandaluyong City. Summit One Tower is a 48 storey building. Units of Summit One Tower are office condominium spaces ready for occupancy, with its own separate 6-level parking building and two basement parking levels. The units are for sale or lease, through either direct sales from walk-in clients, or referrals from independent brokers.

ATN's subsidiaries and associates are Palladian Land Development Inc. (PLDI), ATN Philippines Solar Energy Group, Inc.(ATN SOLAR), Advanced Home Concept Development Corp. (AHCDC) and Managed Care Phils., Inc. (MCPI)

Palladian Land Development Inc. (PLDI) is the developer and major owner of (a) the 48-storey Summit One Tower and an adjacent 6 storey parking building, located at 530 Shaw Boulevard, Mandaluyong City, (b) the subdivided residential land in Pasig City, and (c) the 256-hectare property

located in Rodriguez, Rizal. PLDI's main sources of revenues include sale and rent of condominium units and residential land. Palladian envisions in the future that the above mentioned properties are to be fully considered as a private Economic Zone.

Advanced Home Concept Development Corp. (AHCDC) is a corporation engaged in developing residential properties. AHCDC is a developer of various properties in Pasig City.

Managed Care Phil. Inc. (MCPI) is a corporation engaged in the healthcare industry with investments in outpatient clinics. The company established an ambulatory surgical center at the ground floor of the Annex Building of Summit One under the umbrella of its subsidiary MCPI.

ATN Philippines Solar Energy Group Inc., the project implementing entity of ATN Group for energy business, is setting up a 30 MW Solar PV Project. It will be situated in a 256-hectare property of parent company ATN Holdings, Inc. in Rodriguez (Montalban), Rizal. The site is less than 10 kilometers away from business districts in Metro Manila with a population of 10 million people.

In 2017, ATN Solar embarked on the development of its solar project site in Rodriguez, Rizal. Site development entails the extraction of rock deposits to flatten the terrain and minimize shadowing, which reduces the production of energy of solar PV panels. With DENR ECC-OL-R4A-2017-0414, ATN Solar acquired a 500-ton per hour rock crusher plant for better disposal management and to make the extracted rocks saleable in the public interest, and serve the rock aggregate requirements of President Duterte's major infrastructure projects, as well as the land reclamation projects being undertaken by private entities in Manila Bay.

The solar project is designed to have gross generation capacity of 30 MW peak of direct current (DC). The alternating current (AC) output will be distributed through Manila Electric Company (Meralco) franchise distribution area via a 34.5 KV transmission line connected to the Diliman, Novaliches and Parang circuits.

On patents, trademarks, licenses, franchise, and concessions, the service contract awarded by the Department of Energy to ATN Solar carries a "royalty" of 1% of gross revenue payable to the LGU and national government, as provided for by RA 9513. The same service contract requires government approval, which was granted in the contract itself, allowing ATN Solar to deliver electric power to the grid from ATN Solar 30 MW solar power plant.

In compliance with environmental laws, ATN Solar will plant trees to the extent of 10 new trees per 380 old trees that have to be cut to make the project site ready for installation of solar panels. ATN Holdings as proponent has budgeted P50 per new tree planted to be part of ATN Solar project cost.

ATN Solar will employ 10 workers for the daily operation of the solar power plant. The employees are not subject to any collective bargaining agreements. This number of employees is the only foreseen increase in manpower of the ATN Group.

ATN Solar will negotiate the Power Supply Agreement with Meralco when the rates become favorable for financially sustainable operation of the solar plant.

In 2017, ATN Solar embarked on a rock crushing plant project, funded mainly by (a) its major equity stockholders TBGI and ATNH and (b) UCPB term loan of P100 million.

ATN Philippines Solar Energy Group Inc. is undergoing Land Development works, and installed in 2018 an Integrated Rock Processing plant to utilize such existing rock resources for its project to serve the needs of President Duterte's Build Build, Build Program. It is currently employing at least 100 workers, 80% of which is local hire. Under such development it has secured several national and local permits and licenses including but not limited to Environmental Compliance Certificate, Permit to Install and Permit to Operate rock processing plant, Building permits, Occupancy Permits for its rock processing equipment. The rock processing plant is operational, as of September 2018. Electrical infrastructure to connect to the Meralco distribution networks has been completed and energized to serve the load of the crusher plant and other facilities. The same twin-circuit connection line will be used once the solar PV power generator shall have been operational. Local communities can now enjoy electricity supply from Meralco at no cost to them. ATN has a power supply agreement with Meralco for the operation of rock processing plant.

Competitive Position in the Industry

The Company is competitive in terms of pricing its real estate properties for sale. Its low leverage allows the company to survive even during a slump in the real-estate market. In addition, the company enjoys PEZA incentives in its Summit One Tower Office Building.

The company presently sells real estate property in Summit One Tower and other minor land properties in compliance with real estate laws. Upon start of commercial operation of the ATN Solar rock crushing plant in early 2018, the ATN group shall be selling construction products in the form of rock aggregates, armor rock for reclamation projects, pre-mix concrete, and pre-fabricated concrete products in the future. Management observes that there is no probable governmental law that may have significant effect in company operations since permitting of all aspects of operation of the ATN group have been completed and approved by duly constituted government entities.

Major Risks Involved and other disclosures

1. Local/foreign acquisitions, mergers & consolidations, disposals, joint ventures, other forms of business co-operation, new line of business.
Except for the ATN Solar project, ATN Holdings has no local/foreign acquisitions, mergers & consolidations, new business and other forms of business cooperation.
2. Material change in ATN's financial or trading position.
There is no material change in ATN financial position since the last audited FS other than that already made public.
3. Material contracts entered into, or are being negotiated.
ATN Holdings has not entered into a material contract since 31 December 2014.
As of August 2015, ATN Solar signed supply contracts for solar PV panels, Schneider transformers, switch gear and RMU for 30 MW solar plant capacities.
4. Material change in the operations, operating environment, business plans.
Except for the solar power generation project, there is no other change in operations, operating environment, and business plans.
5. Operating divisions/particular business segments possess with the largest areas of concern.
Challenging competition has always been around for all business segments of ATN Holdings. On the property segment, the financial structure with low debt ratio allows the company to hold on to real estate assets for higher value expectation in the long term.
6. Major risks to ATN's future operating performance and asset position.
The risks associated with the ATN Solar business will be minimized via joint venture with large solar operators or solar PV manufacturers. There is no the major risk facing ATN's operating performance and rate of return on investment in solar power generation. No effect in asset position of ATN Holdings, since project site is already owned by ATN Holdings, Inc subsidiary Palladian Land Development, Inc. The low debt ratio and zero foreign exchange denominate debt of ATN Holdings maintains corporate stability even under the severe test of high interest rates and peso devaluation.
7. Plan for corporate restructuring (dissolution of the existing subsidiaries, affiliates, associates or joint ventures)
There is no plan for corporate restructuring, except the increase of ATN Holdings ownership of ATN Solar.
8. ATN long-term vision, key success factors to achieve this vision.
The ATN investment program covers three strategic business sectors including (a) renewable energy, (b) raw materials for infra and construction for Build, Build, Build, and (c) real estate development that involves PEZA development and land equity. While ATN initiated the solar project ahead of its other business sectors, it has become necessary to remove the excess rock materials first to make the 256 hectares site ready for development of the solar farm, and the PEZA land equity. The long term vision is to flatten the terrain of the property to make the area valuable at its maximum for PEZA and solar energy development. Key success factors stem from the (a) existence of rock materials that can be used for construction activities inside the PEZA area, as well as the infrastructure projects of the government in Metro Manila., and (b) the proximity of the project site to Metro Manila where there is maximum economic activity.
9. ATN market position, vis-à-vis domestic competitors.
On the real estate business sector, ATN Holdings market share is relatively small compared to large real estate competitors. However, in absolute terms, ATN land in Rodriguez Rizal, which is

the site of the solar project, can reach Php 75 Billion if the comparative present price of Php 30,000 per square meter of Ayala land in the same area is used in asset valuation. The Php 30,000 price per square meter of ATN land is not a remote possibility within the 25 years life of the solar project (when land becomes available for other uses), given that Ayala Land, SM Malls, San Miguel group and its competitors are flocking to the future site of large business process outsourcing activity and construction of support facilities in Rodriguez Rizal.

On the raw materials business sector the proximity of primary target market comprising infrastructure projects makes ATN competitive, while the renewable energy sector will have a captive market in PEZA locators.

10. The Group has no patent, trademark, license/concession and royalty contracts.

11. The Group does not need for a government approval for real estate for sale.

12. The Group has 25 employees. There is no union in the corporation and all of its subsidiaries. As such, CBAs are not applicable.

Properties

The Company and its subsidiaries are the owners of (a) selected units and floors of Summit One Tower at 530 Shaw Boulevard, Mandaluyong City, (b) the subdivided residential land in Pasig City and (c) land for real estate development and energy generation in Montalban, Rizal.

Certain condominium units in Summit One Tower in Mandaluyong City are subject to contract to sell executed with third party. Payments received were lodged under "Deposit" in the Statement of Financial Position.

Pursuant to the operating lease commitments, certain investment properties of the Group are leased out to third parties under the operating lease agreement. The lease term is for the period of 1 year renewable at the option of both parties.

The company does not intend to acquire or purchase any real estate or major equipment in the next twelve months.

Legal Proceedings

The Company is not involved in any litigation incidental to the conduct of its business. If there is any claim against the company, the Company believes that the cases against it have no legal basis and that there is no pending litigation that will have a material or adverse effect on its financial position or operations.

Submission of Matters to a Vote of Security Holders

There was no meeting held since the end of fiscal year March 31, 2022.

Certain Relationship and Related Transactions

During the last two years, there were no transactions undertaken by the Company in which any directors, executive officers, beneficial owner, or any member of their immediate family has a direct or indirect material interest.

The Group did not recognize any key management compensation nor provided any stock options and bonuses for the fiscal years ended March 31, 2022, 2021 and 2020.

For information on related party transactions, including the amount/volume and outstanding balances as of March 31, 2022, please refer to Note 24 of the Company's Audited Consolidated Financial Statements.

Management's Discussion and Analysis or Plan of Operation **Plan of Operation**

The real estate sector of holding company plans to continue its focus on existing principal activities and has no plan to engage in product research and development or purchase or sell any plant and significant equipment. The Company values its human resources and it has no plan to decrease the number of its employees.

On renewable energy generation, ATN Holdings secured Php 1.1 Billion credit facility from UCPB (in lieu of Unicap), but solar project implementation was superseded by the Php 1.0 Billion Integrated Rock Processing Project to serve the urgent need for rocks of the Build, Build, Build Program of President Duterte.

ATN Solar expects annual revenues to reach P1 Billion per year once the government infrastructure projects on water supply and waste water treatment procure large volumes of rock aggregates, which can start in 2023 or 2024. The Japanese ODA projects for Metro Manila railway and subway likewise provide a large market for ATN rock aggregates. Palladian Land expects to earn P70 million annually from tenement fees to be paid by ATN Solar

There is no other change in the plan of operations for the next 12 months.

The following are important performance indicators of the company:

Current Ratio	Calculated ratio of current assets into current liabilities. Indicates the ability of the company to finance current operations without need for long term capital
Debt-to Equity Ratio	Calculated ratio of total debt into total equity. Indicates the level of indebtedness of the company in relation to buffer funds provided by equity against any operating losses. Also indicates the capacity of the company to absorb or take in more debt
Asset-to-Equity Ratio	Calculated ratio of total asset into total equity. Indicates the long-term or future solvency position or general financial strength of the company.
Interest Rate Coverage Ratio	Calculated ratio of earnings before interest and taxes into interest expenses. Indicates the ability to meet its interest payments.
Gross profit Margin	Calculated ratio expressed in percentage of the gross margin into total revenues. Indicates the ability of the company to generate margin sufficient to cover administrative charges, financing charges and provide income for the stockholders
Net Income to Sales Ratio, and Earnings per Share	Calculated ratio of net income into total revenues. Indicates the efficiency of the company in generating revenues in excess of cash operating expenses and non-cash charges, and the ability of the company to declare dividends for stockholders.

Total assets almost the same from P3.737 billion to P3.757 billion as of FY March 31, 2022. The significant movements in assets were as follows:

- (1) Increase in cash from P11 million to P16 million.
- (2) Decrease in trade receivables from P4.980 million to P2.808 million.
- (3) Decrease in inventories from P8.033 million to P5.844 million
- (4) Increase in Financial Assets – FVOCI from P57.233 million to P46.235 million.
- (5) Increase in due from related parties from P43.818 million to P70.219 million.

Current liabilities of the company decreased from P55 million to P51 million as of FY March 2022. The net decrease is due to the following:

- (1) Increase in accounts payable and accrued expenses from P4,470 million to P4.766 million.
- (2) Decrease in short-term interest bearing loans from P50 million to P47 million.
- (3) Full payment of lease liability of P748 thousand.

Noncurrent liabilities increased from P1.538 billion to P1.569 billion as of FY March 31, 2022. The net increase is due to the following:

- (1) Decrease in deposits from P21 million to P19 million.

The company's equity almost remain the same from P2.143 billion in FY March 31, 2022 to P2.137 billion in FY March 31, 2022.

The company does not expect an event that will trigger default on direct and contingent liabilities since foreign currency denominated short-term borrowings are often hedged, and there is no off-balance sheet transaction, arrangement or obligation. Given that the real estate business is still recovering from a long slump, there could not be a trend, events, or uncertainties that will have material impact on company revenues.

The real estate inventory of the holding company, which forms the bulk of its subsidiary assets, are assigned higher values due to the fair value valuation of the investment properties.

There is no known trend, events or uncertainties that transpired or that is reasonably expected to have a material favorable or unfavorable impact on net sales or revenue. The company's real estate sales and rentals are dependent on the health of Philippine economy's growth.

- (3) Increase in due to related parties from P693 million to P803 million.
- (4) Increase in pension liability from P789 thousand to P845 thousand.

The company's equity almost remain the same from P2.111 billion in FY March 31, 2020 to P2.143 billion in FY March 31, 2021.

The net losses in 2021 and 2020 resulted from higher activity levels of an expanded organization to support the quarrying and crushing operations of ATN Infra Rocks. The additional costs should have formed part of finished goods inventory of rock aggregates, but management chose to treat it as period cost (expensed) under materiality concept. During the cited period, the company accumulated more than 500,000 tons of rock aggregates (with market value of about P 400 million) and rock boulders inventory feed for the crusher, which can be sold upon resumption of construction of Build, Build, Build infrastructure projects. In the latter part of 2020, ATN commences to sell the aggregates inventory to reverse the two-year reported losses which are insignificant relative to the value of accumulated inventory that is reflected at cost in the financial statements of ATN Solar.

The country is currently experiencing a pandemic virus crisis resulting in a slowdown in the Philippine economy because of the mandated lockdowns all over the country. While the financial impact is considered a non-adjusting subsequent event as at FY March 31, 2021, the effect on the Company's operations and financial performance, however, cannot be reasonably determined. Nonetheless, the Company believes that it can remain a going concern given the essential nature of its industry and its participation in the government's Build Build Build Infrastructure program to jumpstart the economy.

The company does not expect an event that will trigger default on direct and contingent liabilities since foreign currency denominated short-term borrowings are often hedged, and there is no off-balance sheet transaction, arrangement or obligation. Given that the real estate business is still recovering from a long slump, there could not be a trend, events, or uncertainties that will have material impact on company revenues.

Dividends

Management recognizes the SEC comment on dividend policy and has recommend last December 29, 2011, to the Board and Stockholders to approve the following subject to SEC and PSE’s rules and regulations:

- a. Two percent (2%) stock dividend’
- b. Pre-emptive stock rights of one (1) share for every six (6) shares owned at par value of P1.00 per share

The excess of retained earnings against paid-in capital is mainly due to fair value adjustment on Financial assets at FVTPL and fair value adjustment of Investment Property resulting to a gain in the total amount of Php716 million.

There is no restriction on the payment of dividends or common shares, provided there is sufficient retained earnings to support declaration or payment of dividends. There was no cash dividend declared for the last three fiscal years. Stock dividend is planned for the shareholders once the solar energy project is up and running. The available free cash in prior years were used as equity investment for pre-development expenditures of the 30 MW solar project.

In summary, Management action is beneficial to public interest as it complies with SEC governance rules, and results in government collection of taxes.

(5) Recent Sales of Unregistered Securities

The Company has not sold any securities within the past three years that were not registered under the SRC. There was no recent sale of unregistered securities.

(6) Compliance with leading practice on Corporate Governance

The company will make a separate submission on filing of Integrated Annual Corporate Governance. The detailed discussion of the Annual Corporate Governance Section deleted as per SEC memorandum Circular No. 5, series of 2013, issued last March 20, 2013

The Company did not deviate from the adopted Manual of Corporate Governance and all members of the Board Directors as well as Senior Management officers completed and were duly certified to have attended a 1-day special in-house seminar on Corporate Governance. There is no additional plan to improve corporate governance of the company from the existing manual.
