ATN HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2022 and FY MARCH 31, 2022

1. Corporate Information

ATN Holdings, Inc. (*ATN, the Parent or the Group*) was registered with the Securities and Exchange Commission (SEC) on February 12, 1969 under the name Jabpract Mining and Industrial Corporation. On March 14, 1996, Jabpract Mining and Industrial Corporation changed its corporate name to ATN Holdings, Inc. and its primary and secondary purposes were amended to enable it to perform the acts of a holding Group. On November 10, 2016, the Group's articles of incorporation was amended extending its corporate life for another fifty (50) years from February 12, 2019. The amendment was approved by the SEC on November 21, 2016.

The common shares of ATN are listed and traded on the Philippine Stock Exchange. The registered office address of ATN is 9th Floor Summit One Tower Bldg., 530 Shaw Blvd., Mandaluyong City. ATN Holdings, Inc. has no ultimate Parent Company.

2. Statement of Compliance and Basis of Preparation and Presentation

Statement of Compliance

The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) issued by the Philippine Financial Reporting Standards Council including SEC pronouncements.

Basis of Financial Statement Preparation and Presentation

The accompanying consolidated financial statements of the Parent Company and Subsidiaries (*the Group*) have been prepared in accordance with Philippine Financial Reporting Standards on a historical cost basis, except for financial assets at fair value through other comprehensive income (FVOCI) and investment properties that have been measured at fair values.

The consolidated financial statements are presented in Philippine Peso, which is the Group's functional currency. All values represent absolute amounts except when otherwise indicated.

Principle for Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and those of the subsidiaries. The reporting dates of the subsidiaries are December 31. A parent controls a subsidiary when it is exposed, or has rights, to variable returns from its involvement with a subsidiary and has the ability to affect those returns through its power over the subsidiary. Specifically, control is achieved if and only if the Parent Company has the following;

- (i) Power over the investee;
- (ii) Exposure rights, to variable returns from its involvement with the subsidiary; and
- (iii) The ability to use its power over the investee to affect the amount of the Parent Company's returns.

The parent reassesses whether or not it controls a subsidiary if facts and circumstances indicates that there are changes to one or more of the three elements of control.

As of June 30, 2022 and FY March 31, 2022, the consolidated subsidiaries are as follows:

Subsidiary	Principal place of business	Principal Activity	% of Ownership
Palladian Land Development, Inc. (PLDI)	Marbella Bldg. Roxas Blvd, Pasay	Real Property Developer	100%
Advanced Home Concept Development Corporation (AHCDC)	Summit One Tower, Mandaluyong	Real Property Developer	100%
Managed Care Philippines, Inc. (MCPI)	Summit One Tower, Mandaluyong	Health and Wellness Provider	100%

PLDI and AHCDC are companies engaged in the development of residential real estate projects.

MCPI is an out-patient ambulatory surgical center. For the year ended December 31, 2021, MCPI has not commenced its healthcare operations since shutting down in 2018 and accordingly sold a significant portion of its medical equipment during 2020. AHCDC and PLDI have likewise ceased to actively sell its remaining real estate properties. Unsold inventories of real properties were reclassified to investment properties as result of change in recognition. The Parent Company and PLDI is now focused on leasing its investment properties to third parties.

Subsidiaries are consolidated from the date when control is transferred to the ATN Group and cease to be consolidated when control is transferred out of the ATN Group.

For consolidation purposes, the financial statements of the subsidiaries with calendar period ending December 31, are consolidated in the Parent Company's financial statements as of March 31 which is allowed by the existing standard if the difference is not more than three months. Adjustments and disclosures are made for the effects of significant transactions or events that occurred between the date of subsidiaries' financial statements and the date of the consolidated financial statements.

3. Summary of Significant Accounting Policies

New Standards, Interpretations and Amendments adopted by the Group

The accounting policies adopted in the preparation of the interim financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the fiscal year ended March 31, 2022 except for the adoption of new standards effective as at April 1, 2022.

4. Summary of Significant Accounting Judgments and Estimates

The preparation of the consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts in the financial statements and related notes at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the affected asset or liability in the future.

There were no significant changes in the significant accounting judgments, estimates, and assumptions used by the Group.

5. Fair Value Measurement

Financial Instruments

The fair value of financial instruments traded in active market at the reporting date is based on their quoted market price. For all other financial instruments not listed in an active market, the fair value is determined by using appropriate techniques or comparison to similar instruments for which market observable price exists.

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instruments or based on a valuation technique, the Group recognizes the difference between the transaction price and the fair value in the consolidated statements of income unless it qualifies for recognition as some other type of asset.

Set out below is the comparison of fair value and carrying value by category of financial assets and liabilities at the end of the reporting period.

	Quarter ending June 30, 2022		FY ending March 31, 2022	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Loans and receivables				
Cash	12,962,499	12,962,499	16,099,477	16,099,477
Financial assets at FVOCI	46,235,000	46,235,000	46,235,000	46,235,000
Other financial liabilities				
Accounts payable and accrued expenses	3,530,475	3,530,475	4,766,937	4,766,937
Bank loans	47,000,000	47,000,000	47,000,000	47,000,000
Deposits	18,045,535	18,045,535	19,704,472	19,704,472

Fair values were determined as follows:

- *Cash, trade receivables and accounts payable and accrued expenses*– The fair values are approximately the carrying amounts at initial recognition due to their short-term nature.
- *Financial asset at fair value through other comprehensive income* – The fair value of investments that are actively traded in organized markets is determined by reference to quoted market bid prices at the close of business on reporting date.
- *Bank loans* – The fair value of the loans payable is determined by discounting the principal using the market rate of 6%.
- *Deposits* - The fair value of deposits approximates the carrying value as at year end.

6. Financial Instruments, Risk Management Objectives and Policies

The main risks arising from the Group's financial instruments are liquidity risk, credit risk, and market risk. Risk management policies are summarized below.

Liquidity Risk

Liquidity or funding risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from either the inability to sell financial assets quickly at their fair values; or counterparty failing on repayment of a contractual obligation; or inability to generate cash inflows as anticipated.

Liquidity risk is a risk due to uncertain liquidity. An institution may suffer liquidity problem when its credit rating falls. The Group is also exposed to liquidity risk if markets on which it depends on are subject to loss of liquidity.

The Group manages its liquidity profile to: a) ensure that adequate funding is available at all times; b) meet commitments as they arise without incurring unnecessary costs; c) be able to access funding when needed at the least possible cost, and d) maintain an adequate time spread of financial maturities.

The table below summarizes the maturity profile of the Group's financial liabilities at June 30, 2022 and FY March 31, 2022 based on contractual undiscounted payments:

June 30, 2022	On demand	Not later than one month	Later than 1 month & not later than 1 3 months	Later than 3 month & not later than 1 year	No fixed payment period	Total

Credit Risk

Credit risk is risk due to uncertainty in a counterparty's (also called an obligor) ability to meet its obligation.

Generally, the maximum credit risk exposure of financial assets is the carrying amount of the financial assets as shown on the face of the consolidated statements of financial position (or in the detailed analysis provided in the notes to consolidated financial statements). Credit risk, therefore, is only disclosed in circumstances where the maximum potential loss differs significantly from the financial asset's carrying amount.

The table below shows the gross maximum exposure to credit risk of the Group as of June 30, 2022 and FY March 31, 2022. Net maximum exposure is the effect after considering collaterals and other credit enhancements.

	Gross maximum exposure	
	June 30, 2022	FY March 2022
Cash and cash equivalents	P 12,962,499	P 16,099,477
Trade receivables	1,856,760	2,808,880
Financial assets at FV through OCI	46,235,000	46,235,000
	P 61,054,259	P 65,143,357

The credit quality of the Group's assets as of June 30, 2022 and FY March 31, 2022 is as follows:

June 30, 2022	Neither past due nor impaired		Past due but not impaired	Past due and impaired	Total
	High grade	Standard grade			
Cash and cash equivalents	12,962,499	-	-	-	P 12,962,499
Trade receivables	-	1,856,760	-	-	1,856,760
FVOCI financial assets	-	46,235,000	-	-	46,235,000
	P 12,962,499	P 48,091,760	P -	P -	P 61,054,259

FY March 31, 2022	Neither past due nor impaired		Past due but not impaired	Past due and impaired	Total
	High grade	Standard grade			
Cash and cash equivalents	16,099,477	-	-	-	P 16,099,477
Trade receivables	-	2,808,880	-	-	2,808,880
FVOCI financial assets	-	46,235,000	-	-	46,235,000
	P 16,099,477	P 49,043,880	P -	P -	P 65,143,357

High grade cash accounts are deposited in banks belonging to the top banks in the Philippines in terms of resources and profitability.

Standard grade accounts are active accounts with propensity of deteriorating to mid-range age buckets. These accounts are typically not impaired as the counterparties generally respond to credit actions and update their payments accordingly.

Market Risk

Market risk is the risk of change in fair value of financial instrument from fluctuation in foreign exchange rates (currency risk), market interest rates (interest rate risk) and market prices (price risk), whether such change in price is caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

Market risk represents what the Group would lose from price volatilities. Market risk can be measured as the potential gain or loss in a position or portfolio that is associated with a price movement of a given probability over a specified time horizon.

The Group manages market risk by evenly distributing capital among investment instruments in different financial institution.

Price Risk

The Group's price risk exposure at year-end relates to financial asset whose value fluctuates as a result of changes in market price, principally, Investment in financial assets at FVOCI. The impact on the Group's equity excludes the impact of transactions affecting profit or loss since financial instrument carried at fair value are classified as Investment in financial asset at fair value through OCI.

Capital Management

The Group manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the debt and equity balance.

The Group sets the amount of capital in proportion to risk. The Group manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the dividends paid to shareholders or issue new shares.

The capital structure of the Group consists of issued share capital and additional paid-in capital. The financial ratio at the year end, which is within the acceptable range of the Group, is as follows:

	June 30, 2022		FY March 31, 2022
Equity	P 2,599,704,391	P	2,137,165,166
Total assets	3,763,039,877		3,757,981,520
Ratio	0.69		0.57

7. Cash in banks

Cash in banks generally earns interest based on prevailing bank deposit rates. Cash in banks amounted to P12,962,499 and P16,099,477 as of June 30, 2022 and FY March 31, 2022, respectively.

Interest earned from these deposits amounted to P6,614 and P15,512 for period ended June 30, 2022 and FY March 31, 2022, respectively.

8. Trade receivables

Trade receivables represent receivable from sale of aggregates and rental of properties amounting to P1,856,760 and P2,808,880 as at June 30, 2022 and FY March 31, 2022, respectively. These are non-interest bearing and are generally collectible within one (1) month.

9. Inventories

The composition of this account as of March 31 is as follows:

		June 2022		FY March 2022
Stockpile inventory	P	11,550,644		5,844,042
Unused production supplies		400,354		-
	P	11,950,998	P	5,844,042

As of June 30, 2022 and FY March 31, 2022 inventories are carried at cost which approximates its net realizable value.

As discussed in Note 2, the Group has ceased to actively sell its real estate properties. Unsold inventories of real properties amounting to P7.6 million were reclassified to investment properties as a result of change in recognition. The Group is now focused on leasing its investment properties to third parties.

10. Other Current Assets

The composition of this account is as follows:

		June 2021		FY March 2022
Input taxes	P	1,250,024	P	525,093
Deposits		1,115,343		1,633,362
Prepaid taxes		6,745,017		6,610,404
	P	9,110,384	P	8,768,859

- Input taxes represent the 12% tax on domestic purchases of goods and services from VAT registered entities. Input tax is applied against output taxes in the succeeding month.
- Deposits are advance payment of rental that are expected to be applied within the next 12 months.
- Prepaid taxes represent 5% tax withheld on rental. The same may be applied against future income tax liabilities. As of June 30, 2022 and FY March 31, 2022, creditable withholding taxes are considered recoverable in full and no impairment loss is necessary.

11. Financial Asset at Fair Value through Other Comprehensive Income

This account represents 132,100,000 listed shares of Transpacific Broadband Group International, Inc. (TBGI), a publicly listed company in the Philippine Stock Exchange. Fair value was determined through reference to published price quotations.

The reconciliation of the carrying amounts of this account at the beginning and end of the fiscal year is as follows:

		June 2022		FY March 2022
Balance at the beginning of fiscal year	P	46,235,000	P	57,233,000
Changes in fair value		-		(10,998,000)
	P	46,235,000	P	46,235,000

Changes in fair value are reported separately in the consolidated statements of comprehensive income as "Fair value changes in financial asset at fair value through other comprehensive income – net of tax".

ATN Solar

ATN Solar is a grantee of Solar Energy Service Contract with the Philippine Government through the Department of Energy to develop, own and operate a 30MW solar power plant in Rodriguez, Rizal.

As of February 10 2022, ATN Solar has commenced discussion with Engineering Procurement Construction (EPC) groups for the construction of the plant. Construction phases are (1) 250kW pilot plant to test possible technical issues and improve construction efficiency of commercial scale plant to reduce construction timelines. (2) 250kW pilot plant to be expanded to 2MW for the complete modular assembly of DC/AC system.

The Company has awarded in principle the construction of the 250kW plant. Initial output power will be utilized by ATN Holdings, Inc. for internal use, with no export to the grid. Completion in project phases will allow ATN Solar to finalized supply agreements with a Retail Electricity Supplier and/or the Meralco group.

After successful construction of the pilot plant, the Company will decide on the award of construction of modular 3 x 10MW Solar PV plant to the EPC or other EPC to complete the three modules.

The project site of 15 hectares for 30 MW have been leveled and cleared. With the advances in solar panel capacity from to 210Wp to 630Wp per panel, a 15-hectare land area will be allocated for the 30 MW project. The Company needs to install the DC components of the project since the 3 x 10MW sub-distribution lines connected to Meralco have been installed in place. All temporary and ancillary facilities including but not limited to water supply facility, personnel housing, heavy equipment for construction, power supply for construction are ready for the implementation off the 30 MW project, pending the result of the pilot project.

On May 20, 2020, the Company was granted the Mineral Processing Permit and Permit to Dispose rock aggregates. Revenue generated by the Group from sale of these aggregates amounted to P25.6 million and P6.8 million for the fiscal years ended March 31, 2022 and 2021, respectively.

As of March 31, 2022, the Group owns 48.8% of ATN Solar and it exercises significant influence over the financial and operating matters of the associate.

The latest financial information of ATN Solar is as follows:

24. Other Matters

Effects of COVID-19 Pandemic

On March 11, 2020, the World Health Organization declared a global pandemic as a result of the increasing number of COVID-19 cases worldwide. This was followed by the issuance of Presidential Proclamation Order No. 929 declaring a State of Calamity in the Country from the COVID-19 outbreak.

Different quarantine classifications were imposed nationwide which resulted to disruptions in business and economic activities and their impact on business continue to evolve. Internally, the Group continues to adapt to these including implementation of the following:

- Work-from-home arrangement for certain office personnel;
- Online meetings and discussions with officers and employees;
- Use of mobile banking and online platforms for certain financial transactions;

Considering the evolving nature of this outbreak, the Group continues to monitor the situation and will take further actions as necessary and appropriate in response to these economic disruptions and other consequences.

25. Other SEC requirements

Item 2. Management's Discussion and Analysis of Operation

(B) Interim Periods

The company and its three majority-owned subsidiaries use current ratio and debt to equity ratio to measure liquidity, and gross profit margin and net income to sales ratio as key performance indicators. Current ratio is calculated using current accounts cash, marketable securities, receivables, accounts payable, income tax payable and other liabilities maturing in one year. Debt to equity ratio is derived from division of total debt by total amount of stockholders' equity. Profit margin is computed based on ratio of income from operation (before financing charges and other income/loss) to total revenues.

The company uses past year performance as basis for expected results in current year. With the bulk of its business in real estate, the company has no productivity program. It adopts a prudent policy of matching expenditures with revenues to keep current accounts position in balance

The following are 7 (seven) key performance and financial soundness indicators of the company:

Current Ratio	Calculated ratio of current assets into current liabilities. Indicates the ability of the company to finance current operations without need for long term capital
Debt-to-Equity Ratio	Calculated ratio of total debt into total equity. Indicates the level of indebtedness of the company in relation to buffer funds provided by equity against any operating losses. Also indicates the capacity of the company to absorb or take in more debt.
Asset-to-Equity Ratio	Calculated ratio of total asset into total equity. Indicates the long-term or future solvency position or general financial strength of the company.
Interest Rate Coverage Ratio	Calculated ratio of earnings before interest and taxes into interest expenses. Indicates the ability to meet its interest payments.
Gross profit Margin	Calculated ratio expressed in percentage of the gross margin into total revenues. Indicates the ability of the company to generate margin sufficient to cover administrative charges, financing charges and provide income for the stockholders.
EBITDA	Calculated earnings before income tax, and non-cash charges. Indicates the efficiency of the company in generating revenues in excess of cash operating expenses.
Net Income to Sales Ratio, and Earnings per Share	Calculated ratio of net income into total revenues. Indicates the efficiency of the company in generating revenues in excess of cash operating expenses and non-cash charges, and the ability of the company to declare dividends for stockholders.

Corporate Development

The ATN Group subscribed 690 million shares and paid-up of 650 million shares in ATN Solar Energy Group, Inc., (ATN Solar). ATN Solar is engaged in renewable energy generation and trade distribution of renewal energy equipment and accessories. ATN Solar secured a service contract from the Department of Energy for its 30-MW Rodriguez Solar Power Project on May 12, 2011 and a Certificate of Registration from the BOI for income tax holiday, which can be availed in the first seven years of operation.

With the company's sound financial condition, ATN can ride the Corona Virus 19 pandemic, given its low debt to equity ratio, and the low cash burn rate that had been deliberately structured to survive financial market stress. Hence there is no foreseeable event, which may have a material impact on its short-term liquidity, and no seasonal aspect had material effect on the financial condition of the Company's operation.

Improvements of real estate assets can be funded by borrowings and augmented by internally generated funds because of its large capacity to absorb debt relative to the value of its hard assets. To the best knowledge of Management there are no unusual or non-recurrent accounts that adversely affect the financial condition of the company five years going forward.

MCPI has ceased its healthcare operation in 2019 and sold a significant portion of its medical equipment. AHCDC and PLDI likewise ceased to actively sell its remaining real estate properties and were classified to investment properties as a result of change in recognition. The financial statements do not include any adjustment that might result from this uncertainty.

The company expects to continue its focus on its existing principal activities and actively pursue opportunities for investment in the construction materials supply business and renewable energy sectors in the Philippines.
